

GOLD AWARD WINNER HOME OF THE YEAR OVER 3500 SQ. FT.

The space opens up to a continuous wall of frameless glass to reveal the ocean, as if you were walking onto the large deck of a “floating residence.” The design criteria was for a modern gallery, with a place for everything and everything in its place. Comfort is found in the endless list of amenities and custom detailing. Modern technology is abundant throughout the home. Custom cabinetry and premium finishes are used throughout, such as custom glass stairs, accent walls of chiseled stone, glass tiles, and sculpted wood panels.
